SAFETY DIRECTIONS

WARNING KEEP OUT OF REACH OF CHILDREN

Eye irritant. May cause irritation to eyes. Mild skin irritant. Avoid contact with eyes and skin. When using the product, wear cotton overalls buttoned to the neck and wrist (or equivalent clothing), elbow length PVC/rubber gloves and face shield. If product on skin, immediately wash area with soap and water. If product in eyes, wash it out immediately with water.

STORAGE AND DISPOSAL

Store in closed, original container in a cool well ventilated area. Do not store for prolonged periods in direct sunlight. Triple or, preferably pressure rinse containers before disposal. Add rinsings to foam tank. Do not dispose of undiluted chemical on-site. If recycling, replace cap and return containers to recycler or collection point. If not recycling, break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt. Storage must be in accordance with NZS8409 Management of Agrichemicals.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used container.

FIRST AID

If swallowed do NOT induce vomiting. If poisoning occurs contact a doctor or Poisons Information Centre (Australia Ph 13 11 26) (NZ 0800 POISON 0800 764 766). If chemical on skin, remove contaminated clothing and wash skin thoroughly. If in eyes hold eyes open, flood with water for at least 15 minutes and see a doctor.

MATERIAL SAFETY DATA SHEET

Additional information is listed in the Material Safety Data Sheet which is available from the supplier or visit www.sstnewzealand.co.nz for alternate contact details.

GENERAL INSTRUCTIONS

Hi-Lite is a biodegradable marking foam for agricultural spraying. Hi-Lite is formulated as a liquid. It is non-flammable. The iridescent white foam provides enhanced visibility in low light conditions.

DIRECTIONS FOR USE

Situation	Use Rate / 100 Litres	Critical Comments
Soft – warm water	1.0 – 1.5 Litres	A typical flow rate of 200 – 300mL per minute will normally deliver 20 – 25 Litres of foam per minute. The iridescent shimmer seen from Hi-Lite foam provides enhanced visibility in low light conditions and for people suffering partial colour blindness.
Cold hard water	1.5 – 2.0 Litres	
Hot Weather > 30°C	1.5 – 2.0 Litres	

Not to be used for any purpose other than indicated on this label unless authorised under appropriate legislation.

MIXING:

Start with empty tank. Half fill foam tank with water. Add required amount of Hi-Lite. Place hose in tank below water line and top up to fill tank. Ensure that solution is thoroughly mixed.

CONDITIONS OF SALE

The use of Hi-Lite being beyond the control of the manufacturer, no warranty expressed or implied is given by SST New Zealand Ltd regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and SST New Zealand Ltd accepts no responsibility for any consequences whatsoever resulting from the use of this product.
