

## **Regen-R-8 7-3-5**

### **Soil amendment fertiliser blend for turf renovation**

- Granulated gypsum.
- Slow release starter fertiliser.
- Sand-Aid® Seaplant meal.
- Granular wetting agent.
- Up to 10 weeks performance.
- SGN 125 to 150 (1.25 to 1.5 mm particle size).

#### **Benefits**

- Mini prill formulation for easy spreading onto renovation areas and fine turf. Small enough to fall into grooves and core holes.
- Stimulates rapid growth recovery after renovations.
- Increases CEC levels in sand profiles.
- Includes gypsum to improve soil structure and to increase soil remediation from sodic or salty conditions.
- Sand-Aid®, an internationally recognised granular organic seaplant meal, encourages fantastic recovery and root growth.

#### **General information**

A pre-mixed granular renovation product which contains five of the most commonly used products in turf renovation. Customers' results speak for themselves with this product, especially recovery from renovation.

#### **Application rates**

Apply 2-4 kg/100m<sup>2</sup> (200-400 kg/ha).

**Pack size:** 25 kg bag.

Exclusive to PGG Wrightson Turf.

**The turf to stage the world's  
greatest endeavours.**
