

## ***Pensacola bahia grass***

### **Key features:**

- Very drought tolerant
- Very competitive, good for weed control
- Good shade tolerance
- Very persistent
- Tolerant of heavy grazing pressure

Perennial spring, summer and autumn growing grass suited to tropical climates. Pensacola has a high tolerance to acid soils. Poor frost tolerance and is suited to well drained light textured soils.

### **Maintenance**

Maintain mowing height between 20 - 35 mm.

### **Sowing rate**

80 - 100 kg per hectare.

***The turf to stage the world's  
greatest endeavours.***
