

DuraTurf® Sportline **Economical line marking liquid**

Benefits

- Bright, durable and quick drying.
- Line marking liquid (NOT a paint) and will not harm turf like paints can (paints often contain acetates, fillers, pigments, resin, solvents and biocides).
- Easy to use and mix, and water soluble (can be cleaned from hands and clothing etc).
- Suitable for use in all machines including spray machines and transfer (wheel) line markers.
- Very cost effective.
- Colours: white.

DuraTurf® Sportline is an economical line marking liquid for frequent applications such as sportsfields, school grounds and councils. A true line marking liquid which will not harm turf or the environment and is safe for the person applying it.

Suitable for

- The application and removal of lines and logos on multi-use sportsfields.

Application rates

Spray line marking machines:

Use a ratio of 1:3 (1 part DuraTurf Sportline to 3 parts water) for initial 'mark-up' of the area and a ratio of 1:4 for remarking. Can be diluted up to a maximum of 1:4 with water (ratio will depend on output of marker).

Transfer line marker:

Use a ratio of 1:1 (1 part DuraTurf Sportline to 1 part water) for both marking and remarking. Apply to dry turf and ensure DuraTurf Sportline is dry before applying water (such as irrigation).

Pack size: 15, 200 and 1,000 litres.

**The turf to stage the world's
greatest endeavours.**
