PREMIUM SOIL CONDITIONERS

Gypsum Mini

24% Ca, 16% S

Features of Gypsum Mini

- ✓ Highly concentrated, water-dispersive granule
- ✓ Ideal for use on finecut turf such as golf and bowling greens
- ✓ Excellent for displacing sodium & correcting calcium deficiencies in soil
- ✓ Ideal for renovation or throughout the year in a maintenance program
- ✓ Premium soil conditioner
- ✓ For best results apply with a calibrated fertiliser spreader

GUARANTEED MINIMUM ANALYSIS

Calcium (Ca) as sulphate	–	24.0%
Sulphur (S) as sulphate	–	16.0%

Maintenance Rate: 2–4kg / 100m² or 200–400kg / Ha

Renovation Rate: 5–10kg / 100m² or 400–1000kg / Ha

AmendMAX Gypsum Mini is a highly concentrated, water-dispersive gypsum amendment suitable for use on fine cut turf such as golf and bowling greens, either at renovation or throughout the year in a maintenance program. Excellent for displacing sodium and correcting calcium deficiencies in soils.

Application Guide

For best results, apply the product to a dry leaf, and then irrigate following application to disperse the granules and move them into the soil profile to initiate the amendment process. To achieve the best results, apply using a calibrated fertiliser spreader.

For more information on spreader settings, discuss with your sales representative.

Storage & Disposal

Reseal partially used bags, and store all bags in a dry, well-ventilated area. If the product becomes wet, the granular nature of the product will be compromised.
