BARMAC

AMOS

Spray Grade Herbicide Adjuvant

DIRECTIONS FOR USE:

SITUATION	RATE	CRITICAL COMMENTS
Minimise antagonism to tank mixes with flowable herbicides.	800 g/100 L of spray solution	Half fill spray tank with clean water and start agitation. Add BARMAC Ammo Spray Grade Herbicide Adjuvant to spray tank. With agitation still running, add the required flowable herbicide to the tank and mix thoroughly. Add the required amount of glyphosate based product and the remaining water, mix thoroughly. Add surfactant, if required, near the end of the filling to process to minimise foaming. Always maintain adequate agitation during application and use the tank mix promptly.
Improve performance under adverse weather conditions.		

NOT TO BE USED FOR ANY OTHER PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

BARMAC Amos Spray Grade Herbicide Adjuvant should be used with non-selective herbicides only, as with some selective herbicides use may result in loss of selectivity and therefore crop damage. Ammonium Sulphate may be corrosive to metal parts of the sprayer. Thoroughly flush tanks, pumps and nozzles with water after use.

This product is prone to caking when exposed to moisture. If the product has caked there are potential handling issues when the product is opened or during storage. Caking can also cause problems with dissolution or blockage of spray nozzles in boom sprayer equipment. Ensure that the product is kept dry and stored in the closed original container.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN. Store in the original packaging in a dry, cool, well-ventilated area out of direct sunlight. Once opened, any unused product should be stored in the original packaging within a tightly closed container.

Single rinse before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on site. Puncture and bury empty bags in a local authority landfill. If no landfill available, bury the containers below 500mm in a disposals pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty bags and product should not be burnt.

SAFETY DIRECTIONS

Avoid contact with eyes and skin.

FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131 126.

MATERIAL SAFETY DATA SHEET

Additional information is listed in the Material Safety Data Sheet which can be obtained from the supplier.

NOTICE: Product is designed only for the particular purposes indicated on the label. Failure to use the product strictly as directed may be illegal, prove dangerous and render the product ineffective.
