stamina[®]
greens WDG

MAJOR FEATURES

- WDG formulation that can be used in renovation and via topical maintenance applications.
- Relieves problems with hydrophobic soils.
- Improves water usage by improving water penetration and retention.
- Reduces irrigation requirements by increasing the rate and depth of water penetration.
- Maintains turf health and vigour.
- Provides residual protection from water repellency.

GENERAL DESCRIPTION

Stamina Greens WDG is a Water Dispersible Granular formulation containing a non ionic wetting agent. This product helps to alleviate problems associated with localised dry spot (LDS) from hydrophobic soils in golf and bowling green situations. Stamina greens WDG is particularly beneficial in situations where dry application is required and irrigation cannot be followed up immediately.

DIRECTIONS FOR USE

Stamina Greens WDG works best when applied early in the season prior to moisture stress. However, it can be used curatively to relieve plant stress due to hydrophobic soils at any time during the year.

CONDITIONS OF SALE

Nuturf (A Division of Amgrow Pty Ltd) shall not be liable for any loss injury damage or death whether consequential or otherwise whatsoever or howsoever arising whether through negligence or otherwise in connection with the sale supply use or application of this product. The supply of this product is on the express condition that the purchaser does not rely on Nuturf Australia's skill or judgement in purchasing or using the same and every person dealing with this product does so at his own risk absolutely. No representative of Nuturf Australia has any authority to add to or alter these conditions.

APPLICATION RATES

SITUATION	APPLICATION RATE	COMMENTS
Golf Greens, Tees & Surrounds, Bowling greens, Tennis Courts, Croquet Lawns	1.5kg – 3.0kg per 100m ² OR 150 – 300kg per ha	Spread uniformly over the turf surface. Apply to dry foliage and water soon after application with 3 mm of irrigation. Watering before mowing will prevent particle pick up occurring.

SPREADER SETTINGS (at 3kg per 100m² rate)

Spreader	Setting	Central Hole	Helical Cone
Lesco Calibration Guage	22	17mm	-
Scotts	J	17mm	9

These settings are only approximate. Application speed, age and condition of spreader can cause wide variation. Be sure to calibrate your spreader before application.

SAFETY DIRECTIONS

Keep out of reach of children. Users are cautioned to take reasonable safety precautions when handling and applying this product. Avoid contact with eyes and skin. For more information refer to the safety data sheet (SDS) which is available from the supplier or visit www.nuturf.com.au.
