

DuraVeg® Forestry Mix

Key features:

- Diverse species mix
- Rapid establishment
- Large root system for stabilisation
- Wide ecological adaption

DuraVeg Forestry Mix contains a blend of fast establishing hardy cultivars as well as the added benefits of a legume to assist in the sustainability of vegetation in the infertile soils commonly found on forestry sites. Often these sites have limited-to-no water supply and are devoid of nutrients. The DuraVeg Forestry Mix offers a wide range of benefits including the quick stabilisation of batter slopes and cuttings in various soil types.

Quantity	Species
44%	Perennial ryegrass
20%	Italian ryegrass
10%	Tall fescue
10%	Ecotain® environmental plantain
10%	Subterranean clover
5%	White clover
1%	Browntop

**Proven systems that reclaim
and restore environments.**
