

BOND-FAST EROSION CONTROL

Bond-Fast Erosion Control

Bond-Fast is a concentrated non-toxic anionic polymer liquid additive that is applied for erosion control, temporary soil stabilisation and dust control. Bond-Fast is a green viscous formulation to indicate the application area.

KEY BENEFITS

- *Non-toxic and environmentally friendly*
- *Easy application through water carts and traditional hydroseeders*
- *Prevent erosion at the source*
- *Cost effective versus alternative dust and erosion control practices*

***Proven systems that reclaim
and restore environments.***

PGG Wrightson Turf

Experts from earth to turf

APPLICATION RATES:

Bond-Fast can be applied by hydroseeder or traditional water cart. Application rate can be 5-10% of product concentrate to the total volume of water.

TEMPORARY STABILISATION AND EROSION CONTROL:

SOIL TYPE	PRODUCT REQUIRED FOR TOTAL SOLUTION
<i>Loam</i>	10%
<i>Sand</i>	10%
<i>Clay</i>	5%

Longevity is based on soil type and climatic conditions.

DUST CONTROL ON TRAFFICKED AREAS:

	PRODUCT REQUIRED FOR TOTAL SOLUTION
<i>Initial application</i>	10%
<i>Follow up applications once signs of fugitive dust is present</i>	5%

Pack sizes available (Litres): 1000.
Also available without the green indicator pigment.

Proven systems that reclaim and restore environments.
